FROM IDEA TO ICON

XIKAR is the leading cigar accessory brand—designing and marketing innovative products such as butane lighters, precision cigar cutting instruments, travel cases, humidors, premium butane fuel and humidification systems.

Creator of the revolutionary and iconic Xi cutter, XIKAR products are sold in thousands of retail locations around the world. On October 21, 2014, the United States Patent and Trademark Office determined that the XIKAR Xi Cutter had achieved iconic status, and awarded it with a trade dress Trademark #4,623,391. The Xi cutter design is protected from duplication indefinitely.

The Iconic XIKAR Xi Cigar Cutter

SWAG BUNKER

The SWAG BUNKER, our in-house personalization service can help you build your brand and promote your business with the same print services used to produce our XIKAR Xi2 limited edition series (on right). Simply supply us with a logo or our dedicated team of professional designers can create one for you!

- Low minimum order quantity
- Select from 100s of accessories
- UV printing & laser engraving available
- Fast 3-4 week turnaround
- All done on premises

3 EASY STEPS

1. Send us your logo (we can help)
2. Select your product
3. Start promoting your business

Call us now at (888) 795-4839.

The World's First Triple Soft Flame Cigar Lighter

An homage to tradition with a classic design powered by a triple soft flame—the first of its kind—which creates three separate flames that join together to create one robust flame to fully envelop the foot of a cigar for an effortless light.

Attention to detail is never spared, from the prominent large roller bar for easy ignition to the large faceted body for a comfortable grip to our signature red EZ-View™ fuel window, and easy-to-access compartment for flint replacement.

triple soft-flame

- large easy-to-use flint ignition
- red EZ-view fuel window
- altitude tested to 12,000 ft

Xi3

XIKAR Xi3

The **XIKAR Xi3** collection of premium cigar cutters are distinguished by their unique, cutting-edge designs and exotic materials.

XIKAR Xi3 cigar cutters are bold, masculine and beautifully engineered. Formed from the iconic XIKAR Xi teardrop shape with double guillotine blades, the use of heavier materials in the Xi3 cutters provides the user additional momentum and power for swift and effortless cutting.

Most XIKAR Xi3 cutters feature 440C stainless steel blades with a Rockwell HRC 57 rating, with the exception of the Damascus series. Each Xi3 cigar cutter will cut up to a 60 ring gauge cigar.

About the artist

Charlie Turano III, the Miami-based artist known for his work with Fanatics Authentic, has collaborated with XIKAR to produce two unique limited series.

The One World series features the flags of the USA, Texas, Cuba, Italy, France, the UK and China. The Nightlife Series (page 29) was inspired by the glowing lights and dynamic action of big city night life. Both series feature the artist's signature brushstroke style.

humifan

humifan humidor air circulator

The HumiFan provides intermittent air circulation to prevent stagnant conditions inside your humidor. This fan allows your cigars to “breathe” by redistributing the air inside your humidor to diffuse inconsistent humidity levels, providing a more consistent and stable environment for your cigars.

case of 6
XI-831XI

humifan product benefits

- intermittent air circulation provides uniform humidity levels in humidor
- ideal fan speed for optimal humidity redistribution
- small footprint maximizes cigar capacity
- easy to use - settings pre-programmed
- cordless - no unsightly cords and wires

hygrometers

XI-833XI

wireless hygrometer system

The PuroTemp Wireless Hygrometer System is a technological tool making it easier for cigar smokers to monitor the humidity and temperature inside their humidor. This system can read up to 3 separate units in different locations. It also alerts the smoker if conditions are outside their desired levels. Take the guess work and stress out of monitoring your cigars. Trust XIKAR to protect your cigars!

2-way humidity control

XIKAR 2-Way Humidity Control provides hassle-free maintenance of full-size humidors and HumiStore® Bags. Within an enclosed container, XIKAR 2-Way Humidity Control monitors the ambient RH (relative humidity) and adds or removes moisture to maintain the specific RH engineered into the pack. Since it's impossible to humidify beyond the RH on the pack, it's impossible to use "too much".

Every XIKAR 2-Way Humidity Control RH is accurate to $\pm 1\%$ in an air tight environment, which humidors are not. It's common that the actual RH of your humidor will stabilize up to 5 points lower than the XIKAR 2-Way Humidity Control RH you're using, due to humidor quality and ambient dryness. That's why we offer seven different RH levels: 58, 62, 65, 69, 72, 75 and 84 percent – so you can use the RH that achieves the humidity you and your cigars prefer.

OXO container

holds 4g or 8g Packets #XI-XRD-OXO24

product benefits

- Easy to use, simply unwrap and place the correct number of packets in your humidor and you're ready to go -never guess if or when to refill your humidifier again
- Monitors ambient humidity by adding or removing moisture to maintain the RH engineered into the pack to an accuracy of $\pm 1\%$
- Will not humidify beyond the RH on the packet, it's impossible to use "too much"
- Reverse osmosis inhibits the passage of impurities, ensuring that only clean, pure water-vapor passes through the membrane into your humidor
- Maintenance free, no need to monitor or refill your humidifier. Replace packet when firm.
- All FDA-compliant ingredients that won't damage anything through direct contact

Limited Lifetime Warranty

We are proud to offer our limited lifetime warranty on your XIKAR accessory. If you require warranty service, please visit [XIKAR.com/warranty](https://www.xikar.com/warranty). XIKAR reserves the right to repair, or replace at our discretion. Returned items may be replaced with a refurbished equivalent, depending on the age and condition of the return. XIKAR limited lifetime warranty covers manufacturing defects, but does not cover wear and tear from normal use. Do not disassemble your accessory in attempt to repair it yourself, as this will void the warranty coverage. XIKAR lighters, cutters, humidors, travel cases, hygrometers and ashtrays are all covered by XIKAR Limited Lifetime Warranty. Consumable products, including, but not limited to, butane and humidification are not covered under XIKAR Limited Lifetime Warranty.

If you feel your item is in need of warranty service, please visit [XIKAR.com/warranty](https://www.xikar.com/warranty) to submit your warranty request at your convenience, 24/7.

Three easy steps

1. Create an account to register & track your return
2. Complete online form, detailing your request
3. Receive confirmation via email through each step
